## Natural Fabric Collections

Even we are famously known as Bali's lowest-priced manufacturer of premium grade sustainable Swim & Activewear, it's worth noting we worked with Myers, David Jones, ASOS & Urban Outfitters for many years. We would travel to Australia, Florida & West Coast USA, meeting buyers producing ranges for their in-house labels. Their designers would send over their collections to be produced in plain & digital prints.

Also, over the past 30 years, we have helped literally hundreds of Independent labels worldwide, manufacturing their sample & bulk order requests in custom made & ready to go collections in a sustainable, ethical manner. Many of these brands are now International household names.

We can offer you three collections in natural fabrics, Loungewear, Party & Swimwear Coverups. If you're looking to add something new in the latest trending 2022 shapes to your website or store, then any of these collections could fit the bill. With your order in hand, all we do is brand your Logo as a natural cotton label sewn to the inside of each article.

All of our fabrics have been pre-dyed, ready to cut on demand. All designs have been patterned & graded to known International Body sizes using our 2D Auto CAD software & printers. Working to precise body sizes allows our buyers to move directly to bulk without sampling. What you see in the Catalogues is what you will receive. If you want to see the samples, they are available in black or white in our Shop.

## 3. Mix & Match across all our Collections

If you intend to mix natural collections with any Swim or Activewear, then kindly [contact us](#).

# Labelling

We require your artwork/Layouts in Vector Format AI, EPS, TIFF, SVG. Should you have any issues, then our graphics team will assist, in most cases, free of charge. You can easily find some label ideas of your own by going to Google & adding keywords such as "Natural Clothing Labels".

## Body Size Guide in cm For inches X 2.4

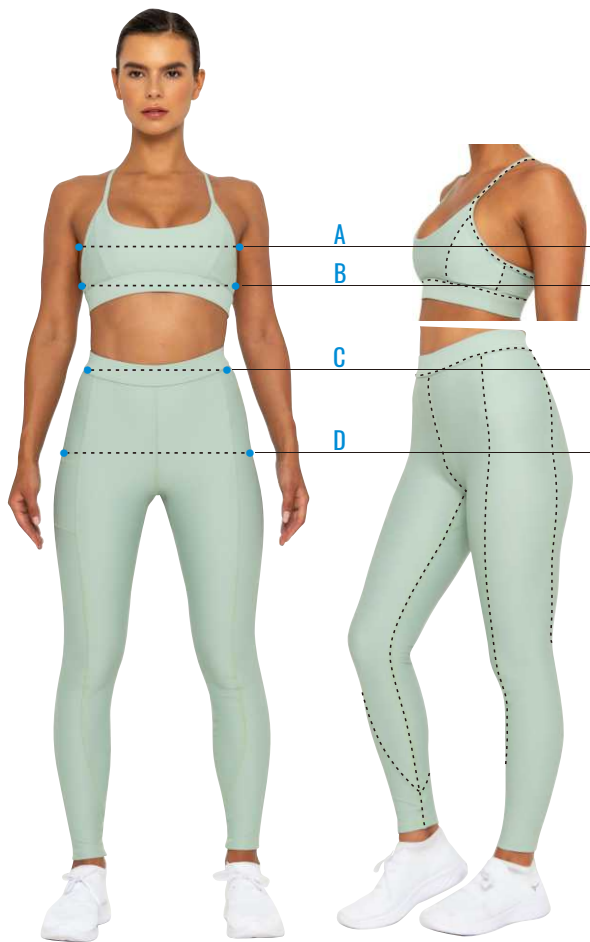

As mentioned, we work on International body sizes, produced digitally using computerized 2D Auto Cad software & printers. As long as your customer base fits our size breaks, then you do not need to sample.

Should you consider our sizes too big or small, we can easily grade up half or a full size.

If you do not check & your samples arrive too big or small, then any remakes are chargeable.

When measuring, use a cloth tape & wrap it around the waist, bust & hips & compare to our chart.

Once you have your samples in hand, slight edits can be fixed quickly, editing the patterns for no cost with an online video call with one of our sample specialists.

### **A. BUST CIRCUMFERENCE**

Wrap the tape around the fullest part of the bust.

### **B. UNDERBUST CIRCUMFERENCE**

Wrap the tape around your ribcage directly under the bust. Stand straight with arms to the side.

### **C. WAIST CIRCUMFERENCE**

Wrap the tape around the narrowest part of the waist.

### **D. HIP CIRCUMFERENCE**

Wrap the tape around the fullest part of the hip, approx. 4cm above the crotch.

### **● MEASURING TIPS**

Use a soft cloth tape & fit close to the body. Don't flex when measuring & keep fairly straight but not too rigid.

## Dispatch & Delivery
